

VanS

The **VanS Driver Processing** application tracks the status of each driver's account. It calculates commissions, updates advances, and handles chargebacks and adjustments. It also handles third-party agent commissions.

Commissions

- ◆ Calculate commissions automatically during the revenue entry process.
- ◆ Update General Ledger and the drivers automatically.
- ◆ Print *Driver Statements* that include order-related revenue, commissions and adjustments.

Advances

- ◆ Checks written for advances are updated to the Driver system, providing immediate status of the driver's account.

Inquiry

- ◆ Monitor the status of each driver with a driver inquiry.
- ◆ View commission detail, advance status, orders assigned, last contact and current location.

Settlements

- ◆ Reconcile and pay drivers individually, or as a group.
- ◆ Show earnings, adjustments, and chargebacks on the *Driver Report*.
- ◆ Transfer information automatically to Accounts Payable for payment processing.

Linehaul Report

- ◆ Show month-to-date and year-to-date linehaul totals by driver for the current and previous year.

Driver Memo System

- ◆ Record conversations with the driver, or other information such as claims settlement, location status, and driver status.
